I focus on defining and communicating a clear vision that guides change and delivers business value. I collaborate with stakeholders and team members to align objectives, influence positive outcomes, and support continuous skill development. By understanding individual strengths, needs, and interests, I help create an environment where people can contribute effectively, grow professionally, and achieve the best possible results together.

PROFESSIONAL EXPERIENCE

Solution Designer

🏢 Sanmarco Informatica S.p.A.

📅 September 2025 - Currently

📍 Grignano di Zocco(VI), Italy

🏠 Hybrid

This represents a major career transition for me. Rather than focusing primarily on implementation, I am now dedicated to designing features that solve customer problems and generate business value. My success is measured by the impact these solutions have on customers and the business.

AGILE Development Team Leader

🏢 Maxima s.r.l. / Bizeta Retail Solutions s.r.l. / Custom S.p.A.

📅 July 2017 - September 2025

📍 Limena(PD) - Mira(VE) - Mestre(VE), Italy

🏠 Hybrid

I started my adventure, as a main software developer of the [IDStore](#) product in July 2017. Due to the increasing importance of [OneStore](#) product, I moved into the development team. Over the years, I was able to grow within the team, becoming an appreciated Team Leader.

Software Developer Specialist

🏢 Ng.srl

📅 June 2014 - June 2017

📍 Rovigo, Italy

🏠 Hybrid

Development of desktop applications using C# programming language, synchronization with the NopCommerce e-commerce platform and use of query notification to update the informations managed by the software in real time.

Development of [Firemaster Show Design](#), a professional software for the management of pyromusical shows.

Implementation of mobile applications for:

- Android, using Eclipse as IDE and Java as programming language.
- Windows Phone, using Visual Studio as IDE and C# as programming language.
- iOS, using XCode as IDE and Objective c as programming language.
- Xamarin (cross platform development), using Visual Studio as IDE and C# as programming language.

Use of Three.js library to realize three-dimensional objects for a web catalog.

desktop app design and development

web catalog using three.js

Scientific Collaborator

Information Management System (IMS) Research Group at the University of Padua

 February 2011, April 2013

 Padua, Italy

 In-person

Website development using the Liferay CE portal server, management of users and SEO activities using Google Analytics for the following projects:

- CULTURA (Cultivating Understanding and Research through Adaptivity).
- TPDL (Theory and Practice of Digital Libraries).

I have participated in the implementation of the websites regarding the following project/conference:

- PROMISE (Partecipative Research labOratory for Multimedia and Multilingual Information Systems Evaluation.)
- CLEF (Cross-Language Evaluation Forum.)
